

## **Prof. Bhupendra Jasani**

Education: M.Sc in Nuclear Physics. PhD in Nuclear Physics and Nuclear Medicine.

Experience:

- i. Since 1990: Department of War Studies, King's College—use of commercial remote sensing satellites for applications to monitor multilateral arms control treaties, confidence building measures and peacekeeping operations. Reports for the IAEA on behalf of UK and German Governments which led to the IAEA establishment of a Satellite Imagery Analysis Laboratory
- ii. 1987-1990: Rockwell International Fellow at the Royal United Services Institute for Defence Studies, London.
- iii. 1972-1987: Stockholm International Peace Research Institute, Stockholm
- iv. 1958-1972: British Medical Research Council

Research Interests: Nuclear non-proliferation and militarization of outer space.

Association with NIAS: Prof Jasani has been involved informally with the activities of ISSSP for a number of years. He has lectured at NIAS on satellite imagery of nuclear installations and the key he has developed. He has freely shared his experience, data and sources for our use.
